

Palm Nutrition, Fertilization, Pruning, and Palm Diseases

September 26, 2017 9:00 a.m. - noon

Marathon BOCC meeting room, 2nd Floor

2798 Overseas Highway, Marathon

What South Florida landscapers and homeowners need to know!

Topics will be:

- Nutritional Deficiencies-Symptoms and Causes - Dr. Timothy Broschat
- Top Five Palm Diseases - Dr. Monica Elliott
- Fertilization and Pruning - Dr. Timothy Broschat

Featured speakers:

Monica Elliott, Ph.D., is a Professor in Plant Pathology, and is the acting co-director at the University of Florida/IFAS/Ft. Lauderdale Research & Education Center, Davie, Florida.

Monica's research focuses on palm diseases, especially ganoderma, and new palm diseases found along the gulf coast.

Timothy Broschat, Ph.D., is a Professor in Tropical Ornamental Horticulture at the University of Florida/IFAS/Ft. Lauderdale Research & Education Center, Davie, Florida.

Tim's specialty is mineral nutrition and fertilization. In recent years he has specialized in developing fertilization programs for Florida landscape palms.
